Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

The amendment and remarks filed 12/30/05 has been acknowledged and entered.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Moxness et al. (5,017,236).

Moxness et al. disclose a method and apparatus for liquid processing of substrates, such as semiconductor wafers or other such items, using high frequency sonic wave energy, including megasonic or ultrasonic wave energy. See col. 1, lines 6-29. The reference discloses maintaining the substrate substantially horizontal. See Fig. 2. The reference discloses substrate chamber 12 is provided for maintaining a substrate 14 immersed in liquid processing solution. See col. 3, lines 41-43. The substrate chamber is further provided with appropriate inlet and outlet ports for flowing processing solution and ultrapure water there through. See col. 4, lines 48- 59, line 67-col. 5, line1, and col. 5, lines 6-8. Re claims 1-11, see claims 16-18, 21, and 25, and Fig. 2.

Moxness et al. do not teach positioning transmitter and transmitting sonic energy to the liquid on one planer side of the substrate as claimed.

It would have been obvious for one skilled in the art to rearrange the position of the transmitter with respect to the substrate to obtain the claimed process, because it was held to be an obvious matter of design choice. See *In re Khule*, 526 F.2d 553, 188 USPQ 7 (CCPA 1975), and *In re Jopikse*, 181 F.2d 1019, 86 USPQ 70 (CCPA 1950).

Response to Arguments

3. Applicant's arguments with respect to claims 1-11 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
